Completing the food diary will give us information about your child's diet and will enable us to assess if they are getting adequate energy and nutrition. Please return your food diary before your assessment appointment to allow time for our dietitian to review your child's nutritional intake.

## Please record everything eaten or drunk for at least 3 days.

- If possible, include two weekdays and one day of the weekend e.g. Thursday, Friday and Saturday
- Note down all food eaten including snacks, all drinks, any nutritional supplements, and tube feeds (if appropriate)
- Describe the type of food and amount eaten with as much detail as possible (see example on next page)
- We ask that you also note common foods eaten, any vitamins, minerals or dietary supplements taken, any comments about hunger, thirst, mood or mealtimes, in the relevant sections
If you are unable to complete this form electronically, you can make notes which can be photographed and sent in, or you could keep phone notes before copying and pasting into an email

## Things to remember about food!

- Write down the amount of food actually eaten
- Record each item separately
e.g. cheese sandwich: 2 slices white bread, 1 tsp margarine, and 1 slice of cheese
- Describe type, brand, and weight of ready prepared meals and snacks
- Describe how food has been cooked, e.g., boiled, grilled, baked, fried, or microwaved
- Include takeaways, meals eaten at friends or relatives, or at restaurants

## Things to remember about drinks!

- You can record amount for each drink or daily total, just remember to give the amount in ml e.g. 200 ml glass of orange juice
- Using a favourite mug or glass for drinks? Record how much it holds, then you can use this measure throughout, without having to re-measure.
- For hot drinks (tea, coffee, chocolate) - state type and amount of milk and if added sugar, honey or sweetener
- Cold drinks - please specify type, including whether standard or sugar free; if diluted, specify amount before adding water
- For home-made drinks (e.g. smoothies/milkshakes) please state all ingredients e.g. 200 ml whole milk, 1 scoop ice-cream, 2 tsps. of Nesquik.
