

# Evolution of Eating Disorder Services and Treatments Six Years On

**Description:** Six years have passed since the first national team training conference. During this period, we've witnessed significant events, including a pandemic. We are excited to extend an invitation to Eating Disorder (ED) services across England to join us at our forthcoming conference. This conference presents a valuable platform for teams to exchange ideas about their innovative practices and advancements in service development that have taken place over the past six years. It would be a great opportunity to come together and share these. Our goal is to establish this conference as a recurring annual event.
